2. Contents of information disclosure: Vien Dong Investment Development Trading Corporation hereby discloses the explanation for the fluctuations in business results in the separate semi-annual financial statements for 2025

Explanation of the Company:

Pursuant to Circular No. 96/2020/TT-BTC dated 16/11/2020 of the Ministry of Finance providing guidance on information disclosure on the securities market.

Vien Dong Investment Development Trading Corporation would like to provide explanations on certain matters related to the separate semi-annual financial statements for 2025, which have been reviewed by Southern Auditing and Accounting Financial Consulting Services Company Limited (AASCS), compared to the financial statements for the same period of the preceding year, as follows:

Difference compared to the report for the same period:

In the Separate Financial Statements:

Indicators (VND)	6M of 2024	6M of 2025	Difference
(1)	(2)	(3)	(4)=(3)/(2)
Profit after corporate income tax	8,719,994,136	970,752,870	11 %

Main reason:

Profit after tax in the first six months of 2025 reached only 11% compared to the same period last year, mainly because the subsidiary is focusing its capital on increasing product output to stabilize and expand the market. As a result, the parent company has not yet received dividend distributions

from the subsidiary, which caused financial income to reach only 49% compared to the same period last year.
